

Service

It's all about service. That's what makes us PeopleWare, and it's what sets us apart. PeopleWare is dedicated to providing the highest quality service at every level and with every individual. Whether in sales, recruiting, human resources, accounting or any area of our business, **we are committed to providing the best service possible.**

“ When I was placed as a contractor, I felt that they really wanted things to work for me, not only the employer. Later, I was on the other side of the fence when we used PeopleWare to staff several projects. They took the time to really understand what we needed and we were only presented with highly qualified candidates. From my experience, I can guarantee that PeopleWare always goes the extra mile for both the employee and the client company. ”

— RICHARD DOYON
Director

Employers

PeopleWare offers a **full spectrum of hiring strategies**, from direct hire and option-to-hire to contract and payroll services, and everything in between. The key is having the services to meet the needs of each employer and their specific requirements. PeopleWare uses our **H2R (High-Hit Recruiting)** process to provide only the best matched talent for efficient and effective staffing.

“ From the very beginning, PeopleWare has been the first place I call when I'm looking to recruit top QA talent. I rarely have to filter through the candidates they send – they've done the filtering for me. ”

— STEPHANIE CAMPBELL
Director, Software Quality Assurance

Job Seekers and Contractors

PeopleWare is **equally committed** to our job seekers. Accepting a job as a contractor or direct hire is a major commitment and it **must be a good fit for both parties.** We take the time to understand the needs and circumstances of each individual to ensure a good match before presenting any candidate to an employer. For our contract employees we provide a wide range of services including insurance, 401(k) with a match, paperless payroll, and much more.

“ My relationship with PeopleWare began in 1995, when they placed me at Symantec Corporation as a principal software engineer, and later in various senior engineering positions at excellent organizations. I also engaged PeopleWare to help me rapidly staff critical engineering groups ... ”

— LEN CAYETANO
Director, Software Engineering
